

Supplier Verification Program (S.V.P)

Thailand Supplier Verification Program

In keeping with Dun & Bradstreet's philosophy of helping companies Decide With Confidence, D&B is launching its own Supplier Verification Program ("S.V.P.") in Thailand by reaching out to local suppliers. This new program is designed to address the increasing demand in Thailand for more transparency in supplier authentication and verification.

Under this program, S.V.P. Corporate Partners will require their current and prospective suppliers to undergo a yearly standard and centralized Vendor Pre-Qualification procedure. Dun & Bradstreet will conduct the comprehensive assessment and pre-qualification using its proprietary DUNSRight™ Quality Process. D&B Supplier Information Reports, paid for by the Supplier, will be provided by D&B to both suppliers and S.V.P. Corporate Partners.

A limited number of Corporate S.V.P. Partners will be invited to participate in this valuable program, a worthwhile contribution to better supplier authentication in Thailand and also enhances the sponsoring company's image and stature.

Build a Strategic Partnership with Thai Suppliers

Benefits For S.V.P. Corporate Partners:

- Significantly reduce company overhead costs on vendor pre-qualification, increase efficiency and productivity
- D&B Supplier Information Reports (including a D&B Risk Rating) will be provided for each of your supplier
- Company exposure in all related print and online advertisements to promote the D&B Supplier Verification Program
- Half-yearly monitoring of suppliers' Credit Risk Index (CRI), a proprietary D&B risk assessment solution. Tracking of CRI trend is crucial in identify potential risk and opportunities among registered suppliers.
- Networking opportunities with Thailand's industry leaders through D&B Sponsored Industry conferences.

Benefits For D&B SVP Corporate Suppliers:

- Ensure that vendor evaluation is fairly being done and with no biases.
- A Supplier Information Report will be done on their company and provided to them
- A D&B Registered Online Seal incorporating Vendor company's profile, visible in Vendor website as well as through D&B's Global Directory of Businesses as certification that they've passed D&B Supplier Authentication process.
- The D&B Registered online seal opens new areas of opportunity for suppliers as:
Enabling potential customers, suppliers and lenders to easily identify and learn about their company
Enhancing the credibility of their business by verifying its existence and legitimacy
- Vendors become part of a globally recognized vendor database via the D-U-N-S® Number
